Good Morning Supreme Court Clerk:

I am expressing these comments on behalf of the Friend of the Court Association and our local Macomb Friend of the Court as well. We have reviewed the proposed amendments to Court Rule 3.215 and have the following concerns:

Section (D)(4)(a): This provision has the potential to create many records and is unnecessary to the rule. Duplicate records can be altered. For appeal purposes there should be one record.

Section (E)(3)(d)(i): If no written objections are filed with 7 days, the clerk shall submit the proposed recommended order to the Court for approval. There is no need to refer this back to the referee. The Court should countersign and the Order can be entered.

If you have further questions regarding our concerns, please contact me.  
Thank you.

Lynn
